CURRICULUM · SENIOR SOFTWARE ENGINEER — PAYMENTS INFRASTRUCTURE & AI ENGINEERING

Ibai Díez Oronoz

Basque Country, Spain ibaidiezoronoz93@gmail.com LinkedIn GitHub ibaidoronoz.github.io

PROFILE

Ten years building backend systems where errors cost money: payment orchestration, smart routing, SWIFT and FIX integrations, and distributed architectures that have to reconcile before they can move on.

In parallel I lead AI enablement for engineering teams: governed agent workflows, versioned playbooks and human gates where being wrong is expensive.

EXPERIENCE

ALTEN · Getnet Platforms · PaymentsHub
2026 — present
Senior Software Engineer

- Backend microservices for payment orchestration and smart routing; SWIFT and FIX network integrations.
- AI enablement lead: standardised, governed workflows with Devin and Windsurf, including retrieval-augmented context for internal assistants.

`Node.js · TypeScript · Java · PostgreSQL · Docker · Kubernetes`

ALTEN · PagoNxt · EMI
2022 — 2025
Senior Software Engineer

- Payment infrastructure and smart-routing microservices; SWIFT and FIX integrations.
- APIs and distributed payment systems, working with product, QA and infrastructure in agile teams.

`Node.js · TypeScript · NestJS · PostgreSQL · Docker · Kubernetes`

ALTEN · Infrastructure Safety
2022
Software Engineer, Android

- Android app for road-worker safety, with on-device image analysis.

`Android · Kotlin`

ALTEN · PagoFX · EMI
2020 — 2022
Software Engineer

- Backend services for cross-border payments inside the Santander ecosystem.

`Node.js · TypeScript · PostgreSQL · Docker · Kubernetes`

ALTEN · Holcim
2018 — 2020
Software Engineer

- Enterprise applications and hybrid mobile solutions for a global industrial group.

`Angular · Ionic · Java · webMethods`

STACK

PAYMENTS
SWIFT · FIX · Smart routing · Orchestration

BACKEND
TypeScript · Node.js · Java · Spring Boot · NestJS · Python · FastAPI · C# · PostgreSQL · MongoDB · Redis · Microservices

AI & AGENTS
Claude Code · Devin · Windsurf · MCP · Local models

WEB & MOBILE
React · Next.js · Angular · Ionic · Kotlin · Compose · Tauri

PLATFORM
Docker · Kubernetes · Caddy · Playwright · Vitest

LANGUAGES

Spanish Native

Basque Native

English Professional

CERTIFICATIONS

Introduction to agent skills

AI Fluency for students

COBOL: start programming

EDUCATION

MSc, Computational Engineering and Intelligent Systems
University of the Basque Country (UPV/EHU) · 2015 — 2016

BSc, Computer Engineering (Software Engineering)
University of the Basque Country (UPV/EHU) · 2011 — 2015

FURTHER TRAINING

Introduction to Xamarin, Android, iOS and Azure
CampusMVP · 2017

Android: introduction to programming
Universitat Politècnica de València · 2013 — 2014

EARLIER

PKF Attest 2017

Software Engineer — Frontend, backend and databases for corporate projects (C#, C++, SharePoint, PostgreSQL).

EUSTAT 2016

Researcher — Interactive public-data web app with statistical storytelling (Laravel, R).

BIC Gipuzkoa · HolaCampus 2014

Software Engineer — University social network for students (Symfony, PostgreSQL).

Senddo 2016 – 2017

Software Engineer — Backend and database for a Magento 2 e-commerce platform (PHP, MySQL/PostgreSQL).

Dinycon Sistemas 2015 – 2016

Software Engineer — Crowd-counting systems: frontend, backend and databases (Laravel, MySQL, MongoDB).

SELECTED PROJECTS

Kizuna

Governed AI engineering: versioned playbooks, one port for eight agent runtimes, human gates and a journal per transition.

164

FINDINGS IN ONE AUDIT

Plutus

Six exchanges and seventeen blockchains reconciled into a correct FIFO report for Spanish tax, on an isolated database per user.

17

BLOCKCHAINS RECONCILED

Crypto Market

Crypto dashboards inside Reddit, installed subreddit by subreddit, refreshed on a schedule and cached so a popular post never hits the API twice.

15 min

REFRESH WITH NO KEY

Txango

Offline Android hiking app: vector maps, 2,034 routes, terrain profile and no Google services anywhere.

2,034

ROUTES OFFLINE

Engineering Platform

Twenty repositories under one validated contract: shared context, gateway, access gate and UI engine.

20

REPOSITORIES, ONE CONTRACT

Oracle

Service control panel with bounded recovery: status, logs, metrics and deploys on one screen.

80
